Re: Reference letter for Randy Brown

Randy recently came to my office and administered AMM acupuncture on several occasions to groups of 12 associates of Castlewood Apparel Corp. The entire team enjoyed the process immensely and felt much more relaxed for the rest of the day and for days to come with the application of the "seeds" he put on their ears. All the participants expressed the desire for future treatments, which we will certainly accommodate them.

I found Randy to be extremely professional and skilled in administering the acupuncture via 5 small needles placed in each ear. I would strongly recommend Randy to anyone interested in this treatment.

Sincerely,

Castlewood Apparel Corp.

Henry Sutton  
President
